

for Multimedia Application

MD-B89C

Module Features

- WLAN features
- Automotive (Grade3) supported
- Complete dual-band(2.4GHz and 5GHz)
- TX and RX low-density parity check
- 2x2 MIMO MAC/PHY/Radio System
- Full IEEE 802.11 a/b/g/n/ac Support
- Supports real simultaneous dual-band(RSDB)
- Support SDIO 3.0 Interface
- Bluetooth feature
- Dual-mode Bluetooth / bluetooth low energy radio
- Bluetooth system v4.1
- Bluetooth Class1 or Class2 Transmitter operation
- Supports multiple simultaneous A2DP for stereo sound
- Supports Bluetooth, Wifi Switching

Applications

- Car Audio
- Audio AMP

Features

Dimension: 11.0 X 11.0 X 2.3 mm
